Mokena Board to Enforce Right Hand

Makes Name as
Artist in Korea

Cpl. Robert J. Tomaska, 22, of Mokena caused quite a sensation at Christmas time with his "Noel Notes", original cards sent to those on his Christmas list and to friends and relatives of men in his battalion in Korea.

His talented pen provided a unique send-off for the holiday season, with the subject matter ranging from the humorous to more serious matters. One showed Santa Claus, his pack loaded with "presents" of picks and shovels for the men reporting to the battalion commander. Another, "The Guiding Light," depicts a lone sentry standing beside a barbed-wire entanglement, bathed in the light of the Christmas star.

"The preliminary sketches were made in Korea," said the corporal, "and the finished drawings sent to Japan for printing. Ideas were born while we were constructing defense positions on the Kansas line. With the Christmas symbols of Santa, holly and evergreen, I've portrayed some of our daily activities." When the line was put on sale, the demand was so great that more cards had to be ordered.

Art was entirely a hobby before Tomaska went into the service. He was art editor on the school newspaper at Lake View High school, Chicago, and since entering the Army 18 months ago has had his work in his regiment's weekly newspaper, "The Jolly Roger," "Stars and Stripes." In the 7th division publication "Bayonet," he designed a series of cards for each company in the battalion.

His parents, who live at 1922 and Wolf road, Sunny Acres, have lived in Mokena for two and one-half years.

Californian Hails
Newspaper Contest

The subscription contest conducted last month by the Semler Newspaper had hardly come to an end when comment began coming in by mail and telephone to the editorial office in Mokena.

Typical of these is a heart-warming message, enclosed in a Christmas card, to Mrs. Virginia Sass, first place winner, from an "old-timer," John C. Broadie, now living in Berkeley, Calif. Mr. Broadie writes:

"Dear Mrs. Sass: I want to congratulate you on winning the News-Bulletin new car. I lived with Mr. and Mrs. Amos Savage near Marley one summer when I was a young man. I was born in New Lenox in 1885 on the Broadie farm, one mile south of New Lenox, and owned by Caroline Bentley. She sowed me the News Bulletin every week.

"I remember Mr. Savage buying a carload of cows and calves to ship to Chicago. There was a hole in the side of the car, which had gone on to Chicago. The calves had gotten out and the next day were running around the town of Marley."

Yours truly,
John C. Broadie

A Salute

Hats off to the Pictorial Progress edition of the Joliet Herald-News, published Jan. 11. It is a splendid piece of work!

There are a great many people, like this editor, who were taken back in fancy to bygone years at seeing the early pictures of Joliet, and who greatly enjoyed the experience.

In my family, in my early youth, there was a horse and a rubber-tired buggy, of which we were all quite proud. It seems that each Saturday night was a regular occasion to drive to town from our home in Ridgeway, regardless of weather, to join the crowds of Saturday night shoppers. For us it was "Saturday night in a small town." The horse and buggy in front of Stillman's drug store, as depicted in the special edition, brings back these old days and these Saturday night trips.

It might as well have been our horse and buggy, for it looks for all the world like the one we used to own.

It was pleasant to view again the old Ottawa St. Methodist church, where we were privileged to spend many happy occasions and where we heard many a fine sermon in the early days; the hack shown at the corner of Jefferson and Scott streets brings fond recollections of the hack that conveyed myself and three other girls to our 8th grade graduation exercises in the old Joliet theater. That was a rare occasion, of course, and we had to hire a hack to give it due solemnity. In those days it was regarded as the height of fashion to ride in a hack, and what could be more fitting for our red letter day.

Roving across the page my eye meets another picture that strikes a responsive chord—the old Spot Cash grocery store. How many times did I go there with my parents, making purchases for the coming week, stocking up on needed staples, chatting with friends, and always coming out loaded with groceries purchased at prices unheard of now.

The picture of Pilcher's Park flowing well starts old memories flowing again, brings back, as though but yesterday, pleasant hours when we stopped to drink this clear, refreshing water from the spring, just as it bubbled from the heart of Mother Nature, before it was walled in.

The first automobile to chug down Joliet streets, which the Herald-News depicts in half-tone, was very real to me, as I recall seeing it and never even dreaming of the days when the automobile would replace the horse and buggy. That first automobile, belonging to Dr. Ogden, the picture of the old Joliet high school tugs at the strings of memory, too, vividly recalling when I was a member of the second class to be in that building.

I wonder if the boat, "Welcome," is the one that carried us on many a happy day spent at Rock Run Park, where shooting the chutes provided many wonderful thrills. The picture of Wards Boy's band, the first band in Joliet, is like opening an old family album, for it brings back many familiar faces, such as the Mau brothers, Frank Meyer, Jim Ward and the Arbuckle boys.

In this little excursion into the past via the pages of the Herald-News Pictorial Progress edition I come upon West Park, called "Bush Park" in those days. Many the good time we had in this old park before the automobile drove the old gray mare off country roads—long before the days of the moving picture, and when the conveniences of the times demanded that folks supply and create their own amusement.

A glimpse of the old Daily News building stirs old and tender memories, for here it was my husband, the late William Semmler, founder of the Semler Newspapers, was employed in the news room, and where he laid the foundations for his later career as a newspaper publisher.

When Teddy Roosevelt came to Joliet, my brother Theodore "Pete" Oestreich, was one of the special policemen for that day. It was a grand day for Joliet, and, to borrow a television caption, "I was there."

Little did I think in those early days that my future lay in the beautiful little village of Mokena, and surrounding area. It has been a source of great pleasure to ramble through the pages of the Pictorial Progress Edition, to compare the old with the new, side by side, and to note the progress evident.

Comparing the past with the present I cannot say that I feel inclined to repeat, with the poet, "backward, turn backward, O time in thy flight." I say this because our modern age has brought so many blessings and

rewards, and I believe the conveniences which we enjoy today contrasted with the hardships of those early days, far outweighs whatever else might be said in favor of bygone years, the stirring joys of which were, unquestionably, inevitably the part of youth.

And so, knowing there are countless others thinking as I am at the perusal of the Pictorial Progress edition, I want to say congratulations to the publishers and editors of the Joliet Herald-News in helping their readers retrace their early footsteps and re-live, in fancy at least, the red letter days which blessed their lives in the long ago.

'54 FORDS
HAVE MANY
NEW FEATURES

The 1954 Ford passenger cars which were introduced to the public in Ford dealers' showrooms all over the nation yesterday, Jan. 6, will feature the following Ford exclusives in the high volume field:

An entirely new 130 hp. Y-block V-8 engine with overhead valves.

A smart new Ford Sunliner convertible with an unusual transparent plastic panel inserted in the top over the front seat to provide overhead visibility.

Four new power operated driving assists: Power brakes, power steering, 4-way power seat, power lift windows.

Formidomatic transmission.

The two new Ford engines for 1954—the Y-block V-8 and the I-block Mileage Maker Six—were designed expressly to lead their respective fields and have been under development for the past six years. L. D. Crusoe, vice president, Ford Motor company and general manager of Ford division, said:

The new I-block 115 hp. Mileage Maker Six also is a completely modern high compression, low friction engine. It rates 14 horsepower more than the 1953 Ford Six and, like the Y-block V-8, it is an "over square" engine—that is the diameter of the cylinder is greater than the stroke of the piston.

According to Mr. Smead, the new ball joint suspension makes the 1954 Ford the most comfortable and easiest handling Ford ever built. Exclusive to Ford in the high volume field, the ball joint suspension replaces the older type king pin suspension. This new system permits up and down movement of the front wheels through the ball joints as the wheels travel over rough spots or directional movement as wheels turn right or left in steering.

BUSINESS LEADERS PREDICT
PROSPERITY IN COMMUNITIES

Marian Larson

As an eventful 1953 bows its way reluctantly out, and a new, zestful 1954 takes its cue in Father Time's eternal command performance, our community of villages turns a speculating eye to what coming months will bring.

The war, for a time quiescent but still ever-threatening on the horizon, caused changes only now being evaluated in terms of America's future development.

Coincident with President Eisenhower's Monday speech, interviews with local business men and civic leaders reveal a high note of optimism. There is a conviction that industry and agriculture will find their roles with little friction and readjustment, that our country is blessed with leadership of the highest order, and that even the most humble have little to fear from sudden work shortages.

Nearly all said that hard work and salesmanship and intelligent planning will bring a successful 1954.

Al Hochberger, cashier of the Frankfort State bank: "I've been watching the economic reports, and we have had a leveling off in agricultural income. I believe 1954 will be practically as good as 1953, with a continuance of the present trend."

"We've had a certain amount of unemployment. Some industries have cut down to five and four days. After the year-end adjustment many will go back."

"A help will be the 10 per cent lowering of the income tax. Also, reducing the excess profits tax will stimulate business, as already reflected in stock prices on the New York exchange, where corporation stocks have risen a little."

"Doc" Cavett, Cavett's Drug store, Tinley Park: "1954 will be one of the best. Possibly not as big as '53 but very good. Tinley Park's growth has been steady and gradual, and both business and civic enterprise has been growing with the town in all departments."

Mayor W. R. Schussler, Jr. Orland Park: "The outlook for 1954 requires a little more concentration, hard work, and honest American effort. We'll be right up there at the end of 1954. I agreed with the President 100 percent, especially in his consideration of all people rather than specific groups, interests or class. He has a good sound American foothold and I believe he's sincere."

Ceward Batson, Batson Equipment company, New Lenox: "Sure it will be just as good. We had no kick on 1953. Yesterday we sold beans at \$3.03 a bushel, the highest in three years."

"New Lenox is booming. They're building houses on the outskirts, and the farmers keep up their places as they have in the past. We have the highest standard in history. "Ike is going to do all right. He's for the people, and that's what we're working for. He's on the right road, looking out for everyone."

"Everything will be adjusted. We can't stay on a race horse all the time, the way business has been geared for the past 10 years."

Elmer Cooper, president of the Mokena Business Men's association: "From all indications it'll be a pretty good year. They're going to lower the income tax, and I don't expect a letdown in wages. I am not against taxes. We vote for them and they bring lots of improvements. Like our high school one and a quarter millions were spent and it gave people a lot of work. That's something we need."

George Gee, president of the Orland State bank: "Everything is in fine shape, and the future looks good. We have a good mar at the head of the government. Ike is very fine and I feel much better than two years ago."

"Orland Park is in a fine spot and we are joining the big city in the progress coming this way. There will be a lot of improvement for our section. We can feel it all the time; I can hardly realize that so many homes could go up in one year."

Stewart Loebe, Loebe's store, Orland Park: "I'm always optimistic. It never pays to be pessimistic about business. There's enough variety of work so no one group should be out. We're in a strategic area and I think the building increase will continue."

"I've come to think of business men as a group as being pessimistic rather than optimistic. I don't think that's a good way of looking at it."

Sheldon Hauck, New Lenox Coal and Feed company: "1954 will be close to '53. In the overall picture, prosperity will continue. President Eisenhower should have come out with some general more specific. He spoke in general terms with some good effect. In normal times we have

ROBBERS BREAK
INTO CARL
BARLOW'S HOME

Mr. and Mrs. Carl Barlow, an elderly couple living three quarters of a mile west of route 45 and about five miles south of Frankfort, were robbed last Saturday. They left their home about two o'clock in the afternoon to visit her sister, Mr. and Mrs. George Hansen in Joliet, and upon returning at 10 p.m. found the back door had been pried open.

The couple entered their home cautiously, by the light of a flashlight, thinking that possibly the thieves were still inside. It was evident at once that their 17 inch table model television set had been stolen. Further investigation revealed that their electric clock had stopped at 7:15, when the set was disconnected.

The robbers had ransacked dresser drawers, but placed the contents carefully back instead of stealing them. A \$25 in cash was missing, together with Mr. Barlow's gold watch, which was more than 60 years old, a keepsake from his parents.

The Barlows were frightened and did not know just what to do, but next morning notified the sheriff, who was unable to find any trace of the thieves. The sheriff stated this appeared to be a well planned robbery, leisurely done, with the knowledge that the home owners would not be back for some time.

FOOD, BAKERY SALE

had unemployment. This year there will be some tapering off."

A. C. Bauch, garage owner, Frankfort: "I agree with many others, that established business is not fearful for 1954. It will take good salesmanship. We have been 'eating cake' and not doing anything as far as salesmanship is concerned. There is no chance for a depression. Taxes will have to be lowered and that will give people added income."

"At the rate the country is growing there will be plenty to do for the building trades, industry and food suppliers. I look for a good farm year."

Harry Maser, cashier and president of the Bremen State bank, Tinley Park: "According to what I read, 1954 will be about the same. Things have slowed somewhat, and the recent layoffs will make a difference. At Christmas, people seem to have money for things they were buying. Here at the bank we think this year's business will be as good as that of 1953."

Charles Swenberg, president of the Mokena Civic association: "Our town has growing pains. There's plenty of work for those who want it. It's hard to employ people as many do not want to work. We are going thru a period of readjustment."

"I don't look for taxes to come down much. They will be pretty consistent, with the obligations we have to meet, such as new schools and roads."

Henry Vogt, Tinley Park: "We're going to have prosperity. With the amount of people we have, and more coming, high wages should continue. We will have more strikes, though."

"The president, in his speech, was concerned with the safety of the country and keeping the peace."

"Tinley Park is different than some towns which have slowed down. Tinley Park has so much that others haven't got."

George Sengmeister, Mayor of Frankfort: "We think there's a little recession, but things are as good as '53. We're optimistic and doing everything to promote business. There are people complaining they don't put in as much time at work. By spirit there should be more building."

12 Toboggan Slides Offer Opportunity For Thrilling Sport

(CNS) There are 12 toboggan slides available in Cook county forest preserves, weather permitting, Arthur Jenura, assistant superintendent of maintenance, announces.

Six of the slides are at the Swallow Cliff winter sports area in Palos woods, four are at the Jensen area, Milwaukee and Devon, and there are one each at Bemis woods, Wolf rd. and Ogden av., and Dan Ryan woods 87th st. and Western ave.

Jenura says that strong winds can cause snow to drift in the slides and that if they cannot be cleared the slides will be closed. He said that an uneven layer of snow in the troughs could cause slides to tip over after leaving the chutes.

Tobogganing hours are from 1 to 10 p.m. daily. On Christmas eve and New Year's eve the slides are closed at 4 p.m. because not too many people wanted to slide then and so that forest preserve district employees could spend the evenings with their families.

Jenura said there are floodlights at the Palos and Jensen slides and some lights at the Ryan slides, but none at Bemis woods. He said tobogganners should not slide at Bemis unless there is a full moon.

The forest preserve district has 100 toboggans for rent at the Jensen slides and 150 at Palos, at one dollar an hour. Jenura warns against horse play that could cause a serious accident. All of the slides are patrolled to prevent such accidents but the people who use the slides must cooperate, he said.

Jenura suggests that anyone wishing to use the slides call forest preserve headquarters, Columbus 1-8400, to check on conditions.

Nobody is ever alone with a telephone in the house. So when you leave your child with a baby sitter, your telephone makes it possible for you to go out with even greater peace of mind. Of course, you have confidence in your sitter. But there's added comfort in knowing that the telephone is on hand, too. If an emergency should arise, a call can quickly put her in touch with you or the other guardians of family safety: your doctor, the police and fire departments.

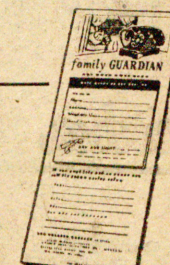

We've prepared a handy card to help your baby sitter. It has places for all the vital information you'll want to leave with her. With this card, called the "Family Guardian"—the baby sitter's helper, she'll be prepared for anything that might come up. Would you like to have one?

IN MEMORIAM

BORMET, Friedricke, In loving memory of our mother, grandmother and great grandmother who passed away seven years ago Jan. 8.

In our hearts your memory lingers,
Always tender, fond and true;
There's not a day, Dear Mother
We do not think of you.

CHILDREN and GREAT GRAND CHILDREN

Because of an error in publishing the following verses last week, we are running it again this week, corrected.

HOW I WISH

By Whitney Carter

Oh, How I wish that I could sail to some place far away...

And how I wish that you were near to love and cherish, day by day...

And how I wish that all the stars would cast their magic spell... And let me dream of you dear heart... and on some enchanted Isle forever dwell...

And I wish when clouds hang low over rain swept fields... And the rose looks up and buds and yields...

Ah, please Almighty God... Do the watching I cannot do... As I may not always think to ask you to...

And may I be forgiven of any thing I failed to do... As you called my sweetheart when I was only half way through...

A party was held recently in the home of Mr. and Mrs. Bud Peterson of Woodland circle honoring the birthdays of their children, Bobby was nine years old Dec. 11 and Shirley was 11 on

Christmas day. Present were their grandparents, aunts, uncles and cousins. Mr. and Mrs. Bud Peterson spent Christmas with Mr. and Mrs. Richard Kirk in Woodland circle. In the evening guests in the Peterson home were Mr. and Mrs. Frank Peterson and Einar Johnson of Chicago.

Announcing for '54 NEW FORD TRUCKS

with *TRIPLE ECONOMY!*

NOW! 5 Ford engines offer
the mightiest concentration of power per cubic
inch ever in any truck line! V-8 and SIX!

For the power they develop, the engines in the 1954 Ford Truck line have less cubic inch displacement than engines in other-make lines. For example, Ford's 239 cu. in. Power King V-8 develops its 130 h.p. on as much as 43 cu. in. less displacement. Smaller-displacement engines normally need less gas! That's one big reason why Ford concentrated power offers greater economy!

Ford takes the lead in **ALL 3** vital factors that make for lower-cost trucking!

1. Now, only in Ford Trucks—gas-saving, LOW-FRICTION, high-compression, overhead-valve, deep-block engines in **all** truck models! 115- to 170-h.p.!

2. New Driverized Cabs, Master-Guide Power Steering, Power Brakes, Fordomatic Drive for faster control!

3. New greater capacity! New Factory-Built "6-wheelers," gross up to 48% more!

SNAP-COUPLER

It's simple! It's easy! It's fast!

SNAP-COUPLER is the new Allis-Chalmers automatic hitching device that lets you change rear-mounted tools in a matter of seconds. It works anywhere, any time — on your farm as well as in our store.

The SNAP-COUPLER is set in a wide funnel located at the tractor's single hitchpoint. As the tractor is backed to the implement, the funnel guides the tongue of the implement into the coupling where it automatically snaps into working position. The two implement lift-links are then quickly snapped to the tractor's lift-arm latches.

Unhitching is equally simple.

SNAP-COUPLER is standard equipment on new Allis-Chalmers WD-45 Tractors; available for tractors now in use.

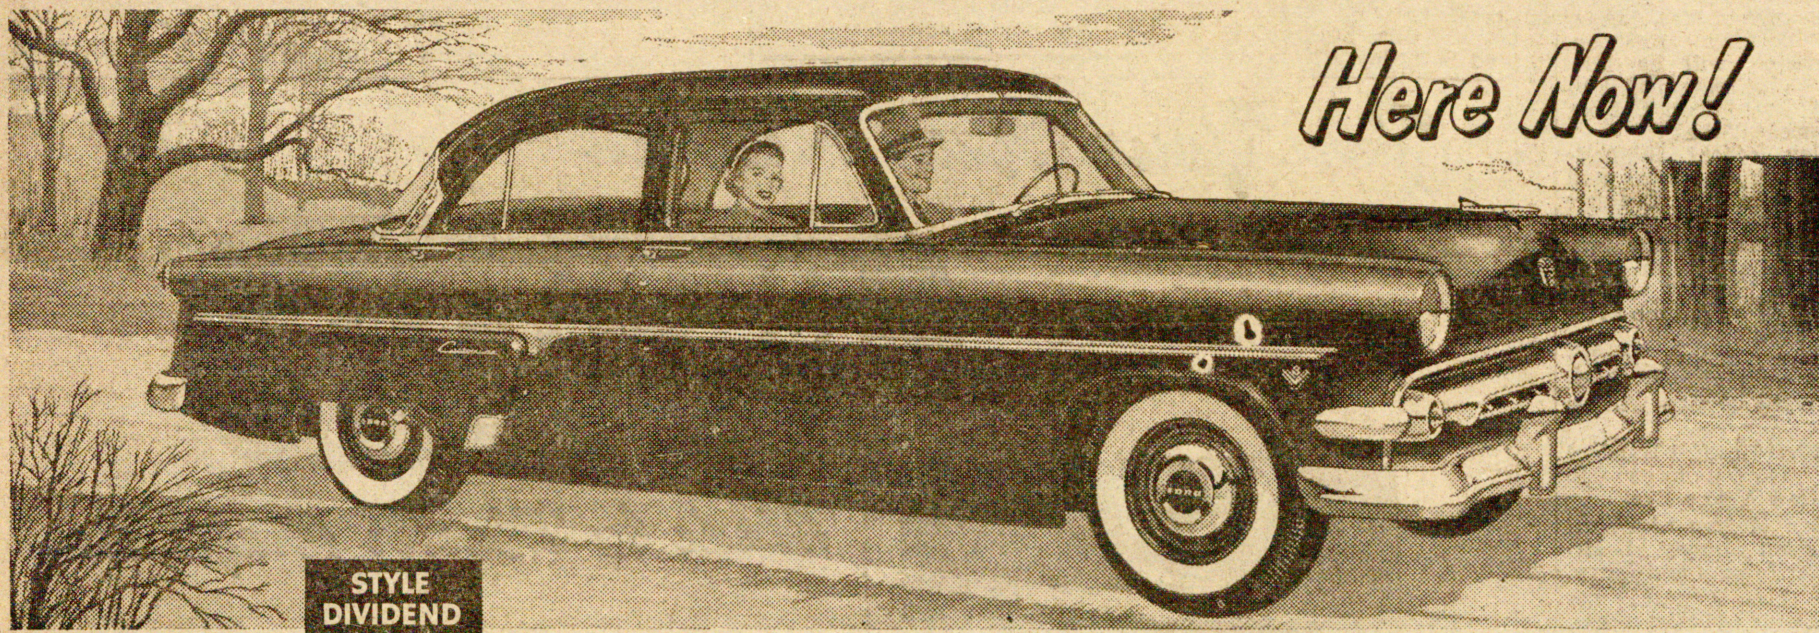

Let us demonstrate. Call or stop in.

YOU'LL FIND THAT EACH new feature in the '54 Ford is an extra dividend in driving enjoyment... establishes Ford, even more in '54, as the "Worth More" car. You get a special dividend in styling with Ford's distinctive new appearance. You get sparkling new interiors, too, that are a dividend in themselves. And each of the new Fords gives you special dividends in ride and performance... with new Ball-Joint Front Suspension, the greatest advance in chassis design in 20 years... with your choice of Ford's new low-friction Y-block V-8 or I-block Six, the most modern engines in any car today! With 28 brilliant new models to choose from, you'll find the exact car to suit your tastes and requirements. Come in... See and Test Drive the '54 Ford.

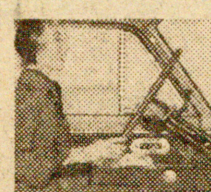

New Ball-Joint Front Suspension

Master-Guide Power Steering
It does up to 75% of your steering work for you, makes parking a pleasure, leaves you with the normal feel of steering on the straightaways.

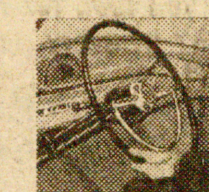

Swift Sure Power Brakes
Power does up to one-third of the work of stopping for you! You are less fatigued, more relaxed, in the stop and go driving of congested traffic.

Power-Lift Windows
Windows open or close at the touch of a button under each window or on left front door. Driver may operate any of the four Power-Lift Windows.

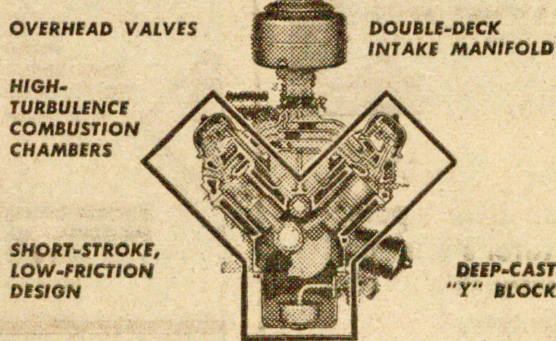

4-Way Power Seat
Push one of two controls and the front seat goes up or down... push the other and it goes front or back. It's a real convenience and comfort feature.

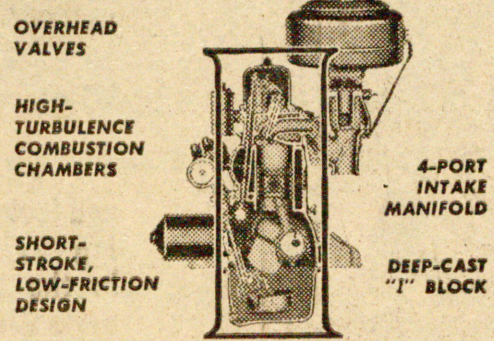

Fordomatic Drive
You get the smoothness of a fluid torque converter plus the instant "go" of an automatic intermediate gear. Ford also offers gas-saving Overdrive.

The new 130-h.p. Y-block V-8

BOTH NEW 1954 Ford engines... the Y-block V-8 and the I-block Six... have overhead valves for most efficient high-compression operation on today's fuels. Valves are free-breathing to give you the most CO... free-turning to seat tightly and maintain high compression. Both engines have a deep-cast block with skirt that extends well below the crankshaft for greater strength and rigidity... smoother, quieter performance and

The new 115-h.p. I-block SIX

extra-long engine life. Their modern short-stroke, low-friction design cuts friction losses... gives you more usable horsepower, more miles per gallon of gasoline. New high-turbulence combustion chambers assure a more thorough mixing of fuel and air for faster, more efficient combustion. Plan to Test Drive a '54 Ford. You'll find these new Ford power plants are the greatest engine advances since the original Ford V-8.

Puffer Says School Facilities in Cook County Inadequate

(CNS) There are 23 1/2 students in Cook county schools for every teacher, year end figures by County Supt. of Schools Noble J. Puffer discloses.

Along with the figures, Puffer laid in the lap of the state legislature two problems—a shortage of school buildings and lack of funds to pay salaries—with the warning that "children may be barred from school next September because the schools will not be able to house them even on double shifts."

Puffer listed high school and junior college enrollment in the county at 38,924 and elementary enrollment at 118,188, a total of 157,112. He said there are 1,992 high school and junior college teachers and 4,701 elementary teachers, a total of 6,693.

In 28 townships, Puffer said, there are three junior colleges, 17 township high schools, seven community high schools, three consolidated high schools, 27 high school districts, one community unit district, and 134 elementary school districts.

The superintendent said there are 374 school buildings, 25 of which are high school buildings and 349 elementary school structures.

"Mushrooming new residential developments have more than taxed the ability of many districts to provide minimum educational opportunities," Puffer said. "With no industry to help pay taxes, and with educational tax rates at the peak allowed by law," he added, "many schools are operating on double sessions. In some instances, children may be barred from school" when the new term begins, he warned pointing out that a bill designed to encourage school building was bottled up in a state legislative committee in the last session.
